Core Competencies – Information Technology and Data Analytics

Health Information Technology (Health IT) involves the exchange of health information in an electronic environment. IMS is helping spread the use of Health IT within the health care industry to improve the quality of health care, prevent medical errors, reduce health care costs, increase administrative efficiencies, decrease paperwork, and expand access to affordable healthcare.

- Data Analytics
- Independent Validation and Verification (IV&V)
- Dashboard Reporting
- IT Technical Services
- Software Design
- Enterprise Architect
- ServiceNow
- Artificial Intelligence and Robotic Process Automation
- Reported on 122 major IT investments and 48 non-major investments
- Provided IT Support to all the staff offices at Department of Education for major cold fusion overhaul
- Provided ServiceNow training to all the program managers at Department of Education
- Reported metrics on Power Business Intelligence

Differentiators

- Managed 15 Military Training Facilities at NMLC and reported on the medical logistics via Power Business Intelligence tool
- Management multiple high project IT projects across agencies for the OCIO
- Managed multiple schedules of multiple projects and reported on a single dashboard
- Provide IT support to the Defense Health Agency
- Conducted IV&V for major Acquisition System at USDA
- Business Analysis testing for IT Systems
- IT Modernization of Legacy Systems at Department of Education
